[The Front End Holy Trinity](#)

Preview11:46

Introduction to HTML

58:55

Unit Objectives

01:38

HTML Basics

05:53

Note about Introduction to MDN

00:19

Introduction to MDN

01:52

HTML Boilerplate and Comments

09:42

Basic Tags

08:28

HTML Lists

04:32

HTML Lists Assignment

01:23

HTML Lists Assignment: SOLUTION

05:59

Divs and Spans

05:13

HTML Attributes

09:00

Recreate Webpage Assignment

01:00

Recreate Webpage Assignment: SOLUTION

03:56

Intermediate HTML

01:12:20

Unit Objectives

01:19

HTML Tables

06:03

Tables Pokemon Exercise

01:18

Tables Pokemon Exercise: SOLUTION

07:39

Introduction to Forms

06:18

Playing with Inputs

03:04

The Form Tag

06:36

Labels

03:37

Form Validations

03:45

Dropdowns and Radio Buttons

11:40

Form Exercise

03:40

Note about the Form Exercise solution

00:21

Form Exercise: SOLUTION

17:00

Introduction to CSS

01:40:06

Unit Objectives

02:07

CSS Basics

05:28

Our First Stylesheet

10:24

Note about CSS Colors (next lecture)

00:12

CSS Colors

14:55

Background and Border

06:59

Note about Selectors Basics Todo List

00:22

Selectors Basics Todo List

10:55

Introduction to Chrome Inspector

05:43

More Advanced Selectors

09:51

Note about Specificity and the Cascade

00:20

Specificity and the Cascade

10:38

Note about Selectors Practice Exercise

00:22

Selectors Practice Exercise

04:58

Intermediate CSS

01:25:59

Unit Objectives

01:41

Text and Fonts

09:54

More Text and Fonts

04:42

Note about Google Fonts

00:41

Using Google Fonts

05:15

Introduction to the Box Model

11:40

Creating a Tic Tac Toe Board

01:11

Creating a Tic Tac Toe Board: SOLUTION

07:43

Note about Image Gallery Code Along Pt. 1

00:15

Image Gallery Code Along Pt. 1

08:40

Note about changes to Google Fonts

00:40

Image Gallery Code Along Pt. 2

05:56

08:34

CSS Blog From Scratch Exercise SOLUTION Pt. 2

08:11

CSS Blog From Scratch Exercise SOLUTION Pt. 3

07:31

Bootstrap

02:00:13

Unit Objectives

02:18

What is Bootstrap?

08:01

Note about Bootstrap versions

00:32

Adding Bootstrap to a Project

09:13

Forms and Inputs

14:00

Nav Bars

15:44

Note about The Grid System

00:11

The Grid System

08:52

Grid System Pt. 2

11:48

Note about Bootstrap Image Gallery Pt. 1

00:59

Bootstrap Image Gallery Pt. 1

14:11
Note about Font-awesome
00:35
Bootstrap Image Gallery Pt. 2
09:17
Creating a Startup Landing Page Code Along
13:48
Creating a Startup Landing Page Code Along Pt. 2
10:29
Note about making bootstrap responsive on mobile devices
00:13

Introduction to JavaScript

56:21
Unit Objectives
04:41
The JavaScript Console
03:22
Primitives
13:14
Primitives Exercises
03:21
Variables
06:25
Null and Undefined
02:33
Useful Built-In Methods
05:12
Writing JavaScript in a Separate File
05:44
JS Stalker Exercise
01:51
JS Stalker Exercise: SOLUTION
04:47
Age Calculator Exercise
01:10
Age Calculator Exercise: SOLUTION
04:01

Javascript Basics: Control Flow

01:21:38
Unit Objectives
03:05
Boolean Logic
05:13
Note about logical operators lecture
00:21
Logical Operators
10:15
Conditionals
08:14
Conditionals Exercise SOLUTION
00:26
Guessing Game Code Along
10:10
Note about Introduction to Loops lecture
00:24
Introduction to Loops
09:26
3 While Loop Exercises
03:25

While Loops Problem Set
01:26
While Loops Problem Set: SOLUTION
07:27
Annoy-O-Matic Code Along
07:14
Note about Intro to For Loops lecture
00:12
Intro to For Loops
04:30
For Loops Quick Exercises
02:18
Loops Problem Set
01:05
Loops Problem Set: SOLUTION
06:26

Javascript Basics: Functions

59:48
Unit Objectives
02:01
Introduction to Functions
05:46
Arguments
08:36
The Return Keyword
09:11
Functions Quiz
01:53
Functions Problem Set
03:17
Functions Problem Set: SOLUTION
14:31
Scope Code Along
06:13
Scope Quiz
02:35
Higher Order Functions Code Along
05:45

Javascript Basics: Arrays

01:39:40
Unit Objectives
02:37
Introduction to Arrays
09:02
Arrays Methods
10:44
Array Quiz
02:55
Note about Todo List Code Along
01:11
Todo List Code Along Part 1
08:24
Array Iteration
17:01
Quick Array Iteration Challenge
03:52
Note about Todo List Code Along Part 2
00:57
Todo List Code Along Part 2

12:19
Array Problem Set
03:18
Array Problem Set: SOLUTION
10:21
OPTIONAL: Building Our Own ForEach
16:59

Javascript Basics: Objects

46:07
Introduction to Objects
09:30
Comparing Objects and Arrays
06:28
Nested Objects and Arrays
04:30
Objects Quiz
03:09
Movie Database Exercise
09:25
Adding Methods to Objects
06:46
The Keyword This
06:19

DOM Manipulation

01:16:05
Note About DOM Manipulation Lectures
00:26
Introduction to the DOM
04:31
Defining the DOM
06:49
Select and Manipulate
05:21
Note about UI changes in new versions of Chrome
00:33
Important Selector Methods
16:04
Selector Exercise
04:16
Note about next lecture (Manipulating Style):
00:07
Manipulating Style
10:05
Manipulating Text and Content
09:37
Manipulating Attributes
06:19
Note about changing the Google logo in next lecture
00:34
Playing With Google Code Along
11:22

Advanced DOM Manipulation

01:15:55
Introduction to Events
13:30
Color Toggle Exercise
09:37

Score Keeper Project Part 1
17:10
Note about Score Keeper Project Part 2
00:19
Score Keeper Project Part 2
18:59
Other Types of Events: Todo List
11:22
Note regarding counting events exercise
00:19
Counting Events Exercise
04:38

-

Color Game Project

01:47:57
Notes regarding color game
00:28
Creating the Color Game Pt. 1
04:57
Creating the Color Game Pt. 2
16:42
Creating the Color Game Pt. 3
10:08
Creating the Color Game Pt. 4
11:04
Creating the Color Game Pt. 5
10:22
Creating the Color Game Pt. 6
14:58
Creating the Color Game Pt. 7
18:06
Color Game Project Part 8
13:48
Creating the Color Game Pt. 9
07:24

-

Intro to jQuery

01:09:18
What is jQuery?
02:48
Why Use jQuery?
08:43
Including jQuery
08:29
Note about jQuery
00:30
Selecting with jQuery
14:38
Selector Exercise
09:33
Text and HTML
08:27
Attr and Val
11:13
Manipulating Classes
04:57

-

Advanced jQuery

34:31
jQuery Events: Click

07:54
Note about typo in the next lecture
00:05
jQuery Events: Keypress
07:24
jQuery Events: On
07:02
jQuery Effects
12:06

Todo List Projects

01:16:07
Note About Todo List App Fade and Slide Animations
00:30
Intro to the Todo List App
03:53
Todo List: Folder Structure
06:06
Todo List: Basic HTML
05:30
Todo List: Marking Completion
09:57
Todo List: Deleting Todos
09:31
Note about next lecture (Creating Todos):
00:12
Todo List: Creating Todos
11:02
Todo List: Styling Pt. 1
14:19
Todo List: Styling Pt. 2
11:57
Note about Font Awesome 5 and Toggling the Form
00:32
Todo List: Toggling the Form
02:37

OPTIONAL Project: Patatap Clone

01:10:50
Project Intro
06:11
Note about Paper.js Exercise
00:19
Paper.js Intro
13:20
Paper.js Exercise
07:17
Adding Keypress Events
10:26
Paper.js Animations
12:45
Note about next lecture (Howler.js)
00:23
Adding Howler.js
19:14
Patatap Clone Refactor
00:53

Backend Basics

01:00:12

Introduction to Backend
11:46
HTTP in Depth
12:25
Backend Workflow Pt. 1
11:42
Backend Workflow Pt. 2
10:38
Note about Cloud9 signup - IMPORTANT!!! Please Read!
00:34
Introduction to Cloud 9
07:50
Setting Up Cloud9
05:17

The Command Line

36:40
A NOTE ON SOLUTIONS!
00:53
Introduction to the Command Line
03:52
CD and LS
10:01
Touch and Mkdir
06:26
Removing Files and Folders
04:32
Command Line Exercise
10:56

Node JS

58:25
Introduction to Node
09:28
Using Node
08:08
Node Echo Exercise
03:59
Node Average Exercise
06:13
Introduction to NPM
05:32
Note about Installing NPM Packages
00:38
Installing NPM Packages
11:07
Note about NPM Faker Exercise
00:14
NPM Faker Exercise
13:06

Server Side Frameworks

01:12:42
Introduction to Express
09:05
Note about Our First Express App
00:12
Our First Express App
17:59
The Package.json

09:05
Route Params
17:37
Express Basics Exercise
03:57
Express Basics Exercise: SOLUTION
14:47

Intermediate Express

01:14:04
Note about Templates and EJS
00:32
Templates and EJS
19:44
EJS: Conditionals and Loops
16:13
Serving Custom Assets
16:51
Post Requests Part 1
11:29
Post Requests Pt. 2
09:15

Working With API's

01:17:17
Intro to API's
15:41
JSON and XML
11:08
Making API Requests with Node
12:21
Sunset Time API Example
08:23
Note about Movie API lectures
00:22
Movie API App: Introduction
08:29
Movie API App: Results Route
06:58
Movie API App: Displaying Data
04:53
Movie API App: Adding Search
09:02

YelpCamp: Basics

57:40
YelpCamp: Initial Routes
14:20
YelpCamp: Layout
05:45
YelpCamp: Creating Campgrounds
12:38
Note about YelpCamp: Styling Campgrounds Lecture
00:36
YelpCamp: Styling Campgrounds
10:42
YelpCamp: Styling Nav and Forms
13:39

Databases

54:13

What is a Database?

10:27

Note about installing MongoDB

01:27

Installing MongoDB

06:41

Mongo Shell Basics

12:29

Notes about Mongoose

01:15

Introduction to Mongoose Pt. 1

09:03

Introduction to Mongoose Pt. 2

12:51

-

YelpCamp: Data Persistence

37:04

YelpCamp: Adding Mongoose

15:42

YelpCamp: Campground Show Page Part 1

10:20

Yelp Camp: Campground Show Page Part 2

11:02

-

RESTful Routing

01:56:10

Intro to REST

16:24

RESTful Blog App: INDEX

17:09

Blog App: Layout

09:19

Note about RESTful Blog App: New and Create

00:46

RESTful Blog App: NEW and CREATE

13:42

Note about RESTful Blog App: SHOW

00:26

RESTful Blog App: SHOW

16:54

RESTful Blog App: EDIT AND UPDATE

16:38

RESTful Blog App: DESTROY

09:09

Note about RESTful Blog App: Final Touches

00:28

RESTful Blog App: Final Touches

15:14

-

Data Associations

39:03

Note about potential MongoDB \$pushAll error

00:29

Introduction to Associations

03:48

Embedded Data

14:31

Note About Object References

00:27

Object References

12:25

Module.exports

07:23

YelpCamp: Comments

01:17:13

YelpCamp: Refactoring App.js

04:52

Note about Seeding the Database

02:01

YelpCamp: Seeding the Database

12:28

Note about comment model lecture

00:34

YelpCamp: Comment Model

11:45

Note about Comments Lecture

00:11

YelpCamp: Creating Comments Pt. 1

15:01

YelpCamp: Creating Comments Pt. 2

09:18

YelpCamp: Styling Comments Pt 1

13:43

Note about YelpCamp: Styling Comments Pt 2

00:17

YelpCamp: Styling Comments Pt 2

07:01

Authentication

58:33

Note about authentication section

00:38

Introduction to Authentication

10:40

Secret Page Code Along Pt. 1

06:24

Secret Page Code Along Pt. 2

10:43

Secret Page Code Along Pt. 3

13:21

Secret Page Code Along Pt. 4

08:05

Secret Page Code Along Pt. 5

08:42

YelpCamp: Adding Authentication

40:13

YelpCamp: Adding Auth Pt. 1

03:58

YelpCamp: Adding Auth Pt. 2

10:44

YelpCamp: Adding Auth Pt. 3

07:28

YelpCamp: Adding Auth Pt. 4

07:51

YelpCamp: Adding Auth Pt. 5

10:12

YelpCamp: Cleaning Up

43:31

YelpCamp: Refactoring Routes

19:07

YelpCamp: User Associations: Comment

13:07

YelpCamp: User Associations: Campground

11:17

YelpCamp: Update and Destroy

01:25:10

Intro to New YelpCamp Features

03:37

Campground Edit and Update

15:12

Campground Destroy

07:45

Note about Campground Authorization

00:22

Campground Authorization Part 1

13:54

Campground Authorization Part 2

06:59

Comment Edit and Update

17:27

Note about Comment Destroy lecture

00:24

Comment Destroy

09:14

Comment Authorization

10:16

YelpCamp: UI Improvements

01:19:42

Refactoring Middleware

11:12

Flash Messages: Installation

14:21

Note about Flash Messages

00:15

Flash Messages: Adding Bootstrap

12:07

Flash Messages: Helpful Errors

13:18

Note about error handling

00:13

Landing Page Refactor - Part One

04:54

Landing Page Refactor - Part Two

12:35

Dynamic Price Feature

09:34

Note about further YelpCamp improvements

01:12

Git and Github

52:18

Intro To Git

13:10

Git Init, Add, and Commit

18:59
Git Log and Checkout
19:51
Note about Git lectures
00:18

Deploying

01:10:14
Intro to Deploying and Heroku
05:04
Deploying a Simple App Part 1
07:05
Deploying a Simple App Part 2
17:19
Deploying YelpCamp: Basics
08:34
Note about MongoLab
00:18
Deploying YelpCamp: MongoLab
12:52
Environment Variables
19:02

JavaScript: The Tricky Stuff

01:02:42
Keyword This 1 - Introduction and Global
03:20
Keyword This 2 - Global With Strict
05:15
Keyword This 3 - Implicit
04:30
Keyword This 4 - Call Apply Bind
03:49
Keyword This 5 - Fixing Our Issue With Call
02:49
Keyword This 6 - Apply
01:28
Keyword This 7 - Bind
02:36
Keyword This 8 - Bind Pt. 2
03:15
Keyword This 9 - New Keyword & Recap
02:36
OOP 1 - Introduction
02:51
OOP 2 - New Keyword
04:03
OOP 3 - Multiple Constructors
04:56
OOP 4 - Recap
01:20
OOP 5 - Prototypes
03:39
OOP 6 - Prototype Chain
04:43
OOP 7 - Exercise
02:11
OOP 8 - Solution and Recap
01:21
Closures
08:00
